

Marrar Cemetery contains a remnant of grassy white box woodland which is considered of national importance. This rare understorey, coupled with the intrigue of old cemetery exploration, make for an interesting visit.

Marrar Park with covered picnic area & public amenities provides an ideal rest stop.

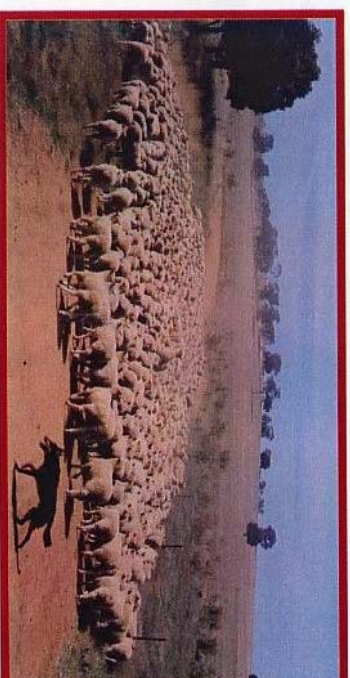

A visit to Dyonne & Alan Whites Café provides the opportunity to "Picture the Past" whilst you enjoy its photographic exhibition, browse through written histories or get 'on-line' to further investigate information about Marrar's history.
