Notes:

Appendix 4 of the **Development Application Preparation and Lodgement Guide** provides a further guide as to the types of development that may require integrated approval. If there is uncertainty as to whether another approval is required, please consult directly with the relevant agency. It is your responsibility to ascertain which approvals are required before lodging your Development Application.

It is also recommended that you consult with the agency concerned before you lodge the Development Application to ensure that you have provided any specific information that the agency will require.

An additional set of all documentation submitted with the DA is required when applying for Integrated Development. Documents are to be kept separate and clearly labelled with the name of the approval body to which they are to be referred.

A prescribed fee per approval body involved applies (schedule of fees can be obtained from Customer Service or at www.wagga.nsw.gov.au). This fee is to be in the form of a cheque made payable to the relevant approval body and is to be submitted to Council with the Development Application. Such a fee is forwarded to the relevant Approval Body with the request for approval.

Applications for integrated development will be referred to the relevant agency to obtain their 'general terms of approval'. These requirements will then be incorporated in the conditions of any development consent issued by the Council under the heading of General Terms of Approval (GTA).
